

Silicone Remover

Slowly evaporating cleaning agent for residue-free surfaces. Removes silicon layers, up to 2 mm thick, completely and reliably. Ideal for joint preparation before sealing new joints. Compatible with most materials used in construction and sanitary facilities.

Types of application:

Remove hardened silicone joints using a joint cutter, cutter knife or other suitable tool. Apply PROBAU Silicone Remover to the silicone residue using a paintbrush or cloth and allow it to take effect for no longer than 5 minutes. Scrape off the partially dissolved silicone residues or remove them with a clean cloth. Repeat the process if required. We recommend that you carry out a trial beforehand.

Material:

Solvent-based cleaning agent
Colour: Transparent
Viscosity: Low
Density at + 15°C: 0.73 g/cm³

Storage:

Store in dry, frost-free conditions.

Quantity required:

20 to 40 g/m² depending on the type of application

Contents:

100 ml

Shelf life:

In its unopened original packaging, the product has a shelf life of 36 months from its date of manufacture. See the date stamp on the packaging.

Disposal:

The packaging may only be recycled if it is completely empty. Do not dispose of with the normal household waste. Do not allow the product to enter the sewer system. Dispose of in accordance with the official regulations.

We accept no liability for errors relating to faulty use or any consequences thereof.

Safety advice:

Contains hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclic compounds, < 2 % aromatics. The liquid and the vapour are flammable. May be fatal if swallowed and enters airways. Can cause drowsiness and light-headedness. Harmful to aquatic life, with long lasting effects. Keep out of the reach of children. Keep the product away from hot surfaces, sparks, open flames and other sources of ignition. Do not smoke. Wear protective gloves/eye protection/face protection.
